

## **COVID-19 (Coronavirus)**

To our 4GR community

We want to reassure you that we are in close consultation with the NDIA and DHHS regarding the COVID-19 (Coronavirus) and it's impact it will have on 4GR supports and services.

The safety of our students, staff and their families are of great importance to us. We have a thorough risk assessment plan which we will implement when we are advised by NDIS/DHHS.

At this stage it is business as usual for 4GR. We will continue to provide our classroom based, one on one and placement supports until we are advised to stop.

We recommend anyone that is not feeling well, remain at home and not attend your intended support until you are cleared to return by your doctor. We will continue to encourage participants to wash hands and we provide and encourage the use of hand sanitiser in the training room and offices.

Should we have to stop our services from being delivered face to face we will offer over the phone coaching and support to ensure continuity in our programming.

If you require further information, please follow this link
