FOR PARENTS AND CARERS

Helping your teen find their first job?

We know that you want the best for your teen, and finding a suitable job can often prove difficult, time consuming as well as daunting – for both you and your child. Let us take away the stress and worry of helping your teen find a good job.

Customised Employment

Customised Employment is a flexible process designed to bring people together to personalise employment opportunities in a way that meets the needs of both the employer and the job seeker. One of our friendly team members will meet with your teenager (and you if you wish to be present) to discuss their skills, interests, strengths and career goals, and the types of positions they might be interested in. We'll then help them find, create and negotiate a position that matches their specific needs.

Work Ready

Our ongoing work integrated learning is designed to help your teenager not only survive but thrive in the workplace. We coach our participants through the practicalities of being in a work environment

Test the Waters

When ready we'll match your teenager with an employer who is seeking their specific skills. Work integrated learning allows your teen to test the waters in their new workplace, and for the new employer to see if it is a good fit for both, before either party commits to paid employment.

Meaningful Paid Employment

If the work integrated learning is successful, we'll help your teen transition into their first paid employment.

Holistic Approach

We work with other service providers in your teenagers' life, collaborating with psychologists, occupational therapists and other specialists so they can start to become more independent.

Through our pro-active approach we can implement various strategies such as:

JOB NEGOTIATION

We negotiate and combine tasks from multiple roles within a business into a new job description.

JOB CUSTOMISATION

We help craft a new job opportunity that includes some, but not all elements or tasks of an existing job description.

JOB CREATION

We assist in creating a new job description from identified unmet business needs of the employer.

JOB SHARING

Two or more people share the same job to fulfill the job requirements.

OUR PROCESS

CAREER PLANNING

We'll meet with your teen to discuss their skills, interests and career goals.

WORK READY SIMULATION

Our participants learn practical and communication skills to thrive in the workplace.

EMPLOYMENT MENTOR

Our employment mentor will find, negotiate and create employment opportunities on behalf of your teenager

WORK INTEGRATED LEARNING

Test drive your new job with a work integrated learning position.

PAID EMPLOYMENT

If all goes well for both parties, your teen will be officially hired!

GET WORK READY

At 4gr we've spent years developing and perfecting our Customised Employment resources to ensure our participants have a successful work integrated learning experience.

Flexible, inclusive and supportive, we will coach participants through the practicalities of being in a work simulation setting, building their skills and confidence.

What to expect:

JOB INTERVIEW SKILLS

We help build up their confidence to present well at job interviews.

SIMULATED WORK ENVIRONMENT

We go through the fundamentals of what happens in a workplace, customised to their type of role.

COMMUNICATION & SMALL TALK

We teach how to effectively communicate with managers and mingle with co-workers.

PRACTICAL ACTIVITIES

We think outside the box with a range of activities to ensure each participant will be job ready to meet the demands of their particular role.

UNSPOKEN & UNWRITTEN RULES

We address some of the challenges they might have experienced in the past and make sure they have an adequate ability to work well with others. We go through some unspoken and unwritten rules of social workplace interactions that your teens may not be aware of.

ONGOING SUPPORT

We ensure each participant not only survives but thrives in their new role by providing ongoing support to update their skills when necessary.
