FOR YOUTH EMPLOYMENT & JOB SEEKERS

Looking for your first job?

If you're looking for your first job, whether that's part-time, full-time or casual, it can seem really daunting to enter the workforce. At 4gr, we're committed to helping you make the transition from school into your first paid employment as smooth and easy as possible, our team will help you get job ready and find your perfect first job.

You'll be confident to tackle your first day, mingle with new co-workers and thrive in a new environment as you start to become more independent and follow your chosen career path.

Customised Employment

Customised Employment is a flexible process designed to bring people together to personalise employment opportunities in a way that meets the needs of both the job seeker and an employer. One of our friendly team members will meet with you and discuss your skills, interests, strengths and career goals, and the types of positions you see yourself working in. We'll then help you find, create and negotiate a position that matches your specific needs. Even if you're not sure of your direction, we'll help guide you to discover your ideal career path.

Get Work Ready

Our ongoing work integrated learning is designed to help you not only survive but thrive in the workplace. We'll coach you through the practicalities of being in a work environment.

Test the Waters

When you're ready we'll match you with an employer that is seeking your skills. Work integrated learning allows you to test the waters on your new workplace, so you and your employer can see if it is a good fit for both of you, before you commit to paid employment.

Meaningful Paid Employment

If the work integrated learning is successful the next step is to transition into paid employment.

Through our pro-active approach we can implement various strategies such as:

JOB NEGOTIATION

We negotiate and combine tasks from multiple roles within a business into a new job description.

JOB CUSTOMISATION

We help craft a new job opportunity that includes some, but not all elements or tasks of an existing job description.

JOB CREATION

We assist in creating a new job description from identified unmet business needs of the employer.

JOB SHARING

Two or more people share the same job to fulfill the job requirements.
